West Lafayette, IN 47907

(609) 255-6542

EDUCATION

- 2022 **Massachusetts Institute of Technology, Boston, Massachusetts**
Ph.D. Civil and Environmental Engineering
Advisor: Ruben Juanes
Thesis: *Photoporomechanics: A New Technique to Explore Grain-scale Mechanisms for Fluid-driven Fractures in Granular Media*
- 2020 **Massachusetts Institute of Technology, Boston, Massachusetts**
Master of Science in Civil and Environmental Engineering
Advisor: Ruben Juanes
Thesis: *Jamming Transition and Emergence of Fracturing in Wet Granular Media*
- 2018 **The University of Hong Kong, Hong Kong**
Bachelor of Engineering, Civil and Environmental Engineering
Minor in Engineering in Computer Science
Advisor: Fiona Kwok
Thesis: *Discrete Element Modeling of the Formation of Arch Network in Granular Media During Shearing Process*

PROFESSIONAL EXPERIENCE

- 2025 – present **Assistant Professor, Lyles School of Civil and Construction Engineering, Purdue University**
- 2023 – 2024 **Stanford Icy Physics Group, Department of Geophysics, Stanford University**
Postdoctoral Scholar, Advisor: Dr. Ching-Yao Lai
- Coupling remote sensing with physics-based models to quantify the ice mélange buttressing against calving
 - Combining discrete element model with graph neural network to simulate complex physics in ice mélange
- 2022 – 2023 **The Lai Research Group, Department of Geosciences, Princeton University**
Postdoctoral Research Associate, Advisor: Dr. Ching-Yao Lai
- Poromechanical modeling on the vulnerability of firn to hydrofracture in Greenland
- 2018 – 2022 **Subsurface Energy and Mechanics Lab, Massachusetts Institute of Technology**
PhD Student, Advisor: Dr. Ruben Juanes
- Experimental study on fracturing in wet granular media using photoporomechanics
 - Discrete element modeling on multi-phase flow and granular mechanics: wettability control on hydraulic fracturing patterns
- 2015 – 2018 **Department of Civil and Environmental Engineering, The University of Hong Kong**
Undergraduate Research Assistant, Advisor: Dr. Fiona Kwok
- Experimental investigations on mechanical properties of sand-rubber mixture
 - Discrete element modeling of the formation of arch network in granular media during shearing process

AWARDS

- 2024 Early Career Investigator Prize, APS March Meeting, Topical Group of Physics of Climate
2018 Hui Ying Hin Fellowship, University of Hong Kong
2018 Wing Lung Bank Ltd. Prize in Civil Engineering in Hong Kong
2018 Centenary Scholarships for Civil Engineering Students, University of Hong Kong
2017 Gammon Construction Limited Prize in Civil Engineering
2016 Chan Hon Chuen Scholarship, University of Hong Kong

INVITED TALKS

- 2026 Jul 21 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, NASA Goddard Institute for Space Studies Sea Level Rise Seminar.
- 2026 Apr 16 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, Department of Geosciences Colloquium, Stony Brook University.
- 2026 Apr 13 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, Department of Civil and Environmental Engineering and Earth Sciences Colloquium, University of Notre Dame.
- 2026 Mar 16 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, Soft Earth Geophysics Focus Session, APS Global Physics Summit.
- 2026 Mar 15 “Computational mechanics for the changing cryosphere”, Tutorial speaker for Topical Group on the Physics of Climate at APS, Global Physics Summit.
- 2026 Mar 13 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, Center for Environmental and Applied Fluid Mechanics, Johns Hopkins University.
- 2026 Jan 30 “Bridging pore and grain-scale physics to the changing cryosphere”, Geology and Geophysics seminar, Department of Earth, Atmospheric, and Planetary Sciences, Purdue University.
- 2026 Jan 06 “From fracture to flow: How calving ice sheets drive mélange and fjord dynamics”, UC Santa Barbara, Kavli Institute for Theoretical Physics, Hard problems in soft earth geophysics conference.
- 2025 Dec 17 “Understanding calving-induced mélange and fjord dynamics in Greenland through multiscale modeling and experiments”, AGU Fall Meeting.
- 2025 Oct 31 “Bridging pore and grain-scale physics to the changing cryosphere”, Water Resource Engineering and Science Seminar, Department of Civil and Environmental Engineering, University of Illinois Urbana-Champaign.
- 2025 Sep 03 “Bridging pore and grain-scale physics to the changing cryosphere”, Computational Interdisciplinary Graduate Program Seminar, Purdue University.
- 2025 Sep 02 “Bridging pore and grain-scale physics to the changing cryosphere”, Hydraulics & Hydrology Seminar, Department of Civil and Construction Engineering, Purdue University.
- 2025 Mar 31 “Bridging pore and grain-scale physics to the changing cryosphere”, Midwest Glaciology Meeting, University of Wisconsin, Madison.
- 2025 Mar 3 “Bridging pore and grain-scale physics to the changing cryosphere”, Serve as a panelist at a special session “From the grain up: characterization and modeling of particulate materials”, Geotechnical Frontiers.
- 2025 Jan 24 “Bridging pore and grain-scale physics to the changing cryosphere”, Department of Earth and Environmental Science Seminar, University of Pennsylvania.
- 2024 Dec 11 “Seasonal Changes of Mélange Thickness Coincide with Greenland Calving Dynamics”, AGU Fall Meeting.
- 2024 Dec 10 “3D Discrete Element Model and Continuum Theory for Granular Flow of Ice Mélange”, AGU Fall Meeting.
- 2024 May 16 “Seasonal Changes of Mélange Thickness Coincide with Greenland Calving Dynamics”, Mathematics On Ice Forum.
- 2024 Apr 11 “Bridging pore and grain-scale physics to the changing cryosphere”, Department of Earth, Atmospheric & Planetary Sciences Colloquium, MIT.
- 2024 Mar 19 “Soft earth geophysics for energy and climate: from grain to landscape scales”, Department of Civil Engineering Colloquium, Purdue University.
- 2024 Mar 11 “Soft earth geophysics for energy and climate: from grain to landscape scales”, Department of Civil and Environmental Engineering Colloquium, Carnegie Mellon University.
- 2024 Feb 29 “Bridging pore and grain-scale physics to the changing cryosphere”, Department of Geophysics, Stanford University.
- 2024 Feb 13 “Soft earth geophysics for energy and climate: from grain to landscape scales”, Department of Earth, Environmental and Planetary Sciences Colloquium, Rice University.

- 2024 Feb 8 “*Bridging pore and grain-scale physics to the changing cryosphere*”, Department of Earth, Environmental, and Planetary Sciences Colloquium, Washington University in St. Louis.
- 2023 May 5 “*Photoporomechanics: A new technique to explore grain-scale mechanisms for fluid-driven fractures in granular media*”, American Rock Mechanics Association Future Leader Webinar Series.
- 2023 Apr 27 “*Photoporomechanics: A new technique to explore grain-scale mechanisms for fluid-driven fractures in granular media*”, Department of Civil Engineering, McMaster University, Canada.
- 2022 Apr 15 “*Fracturing in wet granular media illuminated by photoporomechanics*”, Solid Earth Brown Bag, Department of Geosciences, Princeton University.
- 2021 Jun 2 “*Jamming transition and emergence of fracturing in wet granular media*”, Earth Resources Laboratory Annual Founding Members Meeting, Massachusetts Institute of Technology.
- 2019 May 22 “*DEM modeling of coupled multiphase flow and granular mechanics: Wettability control on fracture patterns*”, Earth Resources Laboratory Annual Founding Members Meeting, Massachusetts Institute of Technology.

MENTORING EXPERIENCE

- 2025 – present Xueji Shi (Graduate Student, Purdue University)
- Summer 2026 Caleb Hamilton (Undergrad student, Purdue University)
- 2025 – 2026 Krutika Appaswamy (Postdoc, Purdue University)
- 2024 – 2025 Lexi Arlen (Graduate Student in Dr. Earle Wilson Group, Stanford University)
- Fall 2024 Qing Xia (Research assistant in Dr. Ching-Yao Lai Group, Stanford University)
- Summer 2024 Jello Zhou (Undergraduate Student in Dr. Ching-Yao Lai Group, Stanford University)
- Fall 2023 Judy Liu (Undergraduate Student in Dr. Ching-Yao Lai Group, Stanford University)
- Spring 2023 Hugh Shields (Undergraduate Student in Dr. Ching-Yao Lai Group, Princeton University)
- 2022 – 2023 David Dai & Feihu Ke (PhD Students in Dr. Fiona Kwok Group, University of Hong Kong)

PROFESSIONAL ACTIVITIES

- 2026 – present Member-at-Large, American Physical Society, Topical Group on the Physics of Climate
- 2018 – present Member, American Physical Society
- 2018 – present Member, American Geophysical Union

Reviewer: International Journal for Numerical and Analytical Methods in Geomechanics, SPE Journal, The Cryosphere, Physics of Fluids, Journal of Glaciology, International Journal of Multiphase Flow

Conference Session Convenor/Chair: AGU Fall Meeting - Earth and Planetary Surface Processes: Geophysical Granular Flows and Sediment Transport, Bridging Grain-Scale Mechanics and Continuum Modeling (2025); APS Annual Meeting of the Division of Fluid Dynamics – Geophysical Fluid Dynamics: Cryosphere (2024)

Conference Organizer: International Glaciology Society Midwest Glaciology Meeting (2026)
